

Most important strategic items for ferry ports in the next 1-3 years

	<b>Possibilities</b>	<b>Solutions</b>	<b>Challenges</b>
<b>Ferry tonnage</b>	Continuing growth of freight movement	Investments in new vessels / replacement	Timely replacement of tonnage & availability of terminal space
<b>License to operate</b>	Port and environment work together	Liquified natural gas / shore power	Priority in and cost of transition to environmentally sustainable ships
<b>Cost efficient</b>	Sustainable ship is more cost efficient (less fuel)	Investment / replacement + efficient operations	Investments + Ferry and port infrastructure
