

# Attica Group's Strategic Challenge: Green Transition

Malmö 20.05.2022

We must all act together for Earth

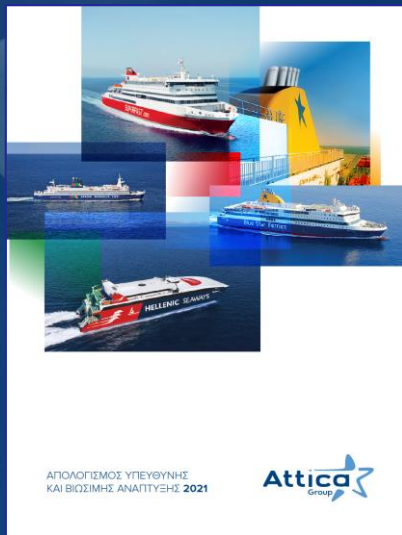

## The scene / Uncertainties

1. **The interaction of** IMO regulations/Fit for 55 EU regulatory requirements creates a demanding context
2. There is **not enough time** to comply with regulations
3. Implementing **Energy Saving Devices** is being evaluated
4. In medium term key focus will be **on diversifying the fuel composition of the fleet** / Not a clear dominant fuel
5. Need for development of the required **supply chain** and **port infrastructure** for **alternative fuels**.

- **Attica Group is the only Greek passenger shipping company that systematically and consistently publishes Corporate Responsibility Reports as from 2006 participating from as early as 2008, in the UN Global Compact initiative.**
- **We have already developed, and we currently implement the second 3-year strategy. We have improved our score significantly since 2017.**

## Sustainability & Responsibility Report 2021

- **Scope 1 & 2 emissions reported**
- **GRI standards**
- **ESG structure**
- **Audited and certified by Grant Thornton for 21 key quantitative indicators**
- **NASDAQ & ATHEX ESG Guidelines**
