Built by Yamanishi in 2000

Ro-Pass-HSC THUNDER
LOA: 86.60m – Beam: 24.00m
Built by Austal in 1998

We are proud of

- **Our People and increased retention rate.**
- **Our flagship THEOLOGOS P. (118m/876 lane meters), which was not only the newest vessel ever commissioned at the Port of Rafina but also has significantly contributed to the traffic development of the port as well as the Company's growth.**
- **EKATERINI P., which was re-engined with new pitch props (project 2021). A distinguished ship for her efficiency! (More speed, less fuel consumption).**
- **The HSC THUNDER which was our first HSC vessel. A luxurious modern vessel that was sold to Hellenic Seaways on September 2024.**

Future Challenges

- **Fleet Renewal with modern & environmental friendly vessels**
- **Fast Ferries believes and shares the vision of emission reduction (Reduction of CO₂ footprint per passenger)**
- **Compliance with European environmental regulations**
- **Crew Manning Challenges**

Thank you!
