“ Thanks to Surikat's support, we took an important step forward in our automation journey. This led to a significant reduction in exception handlings, dramatically improving transaction times and strengthening operational stability. We are excited to scale the solution across all Scandlines routes. ”

Stena Line

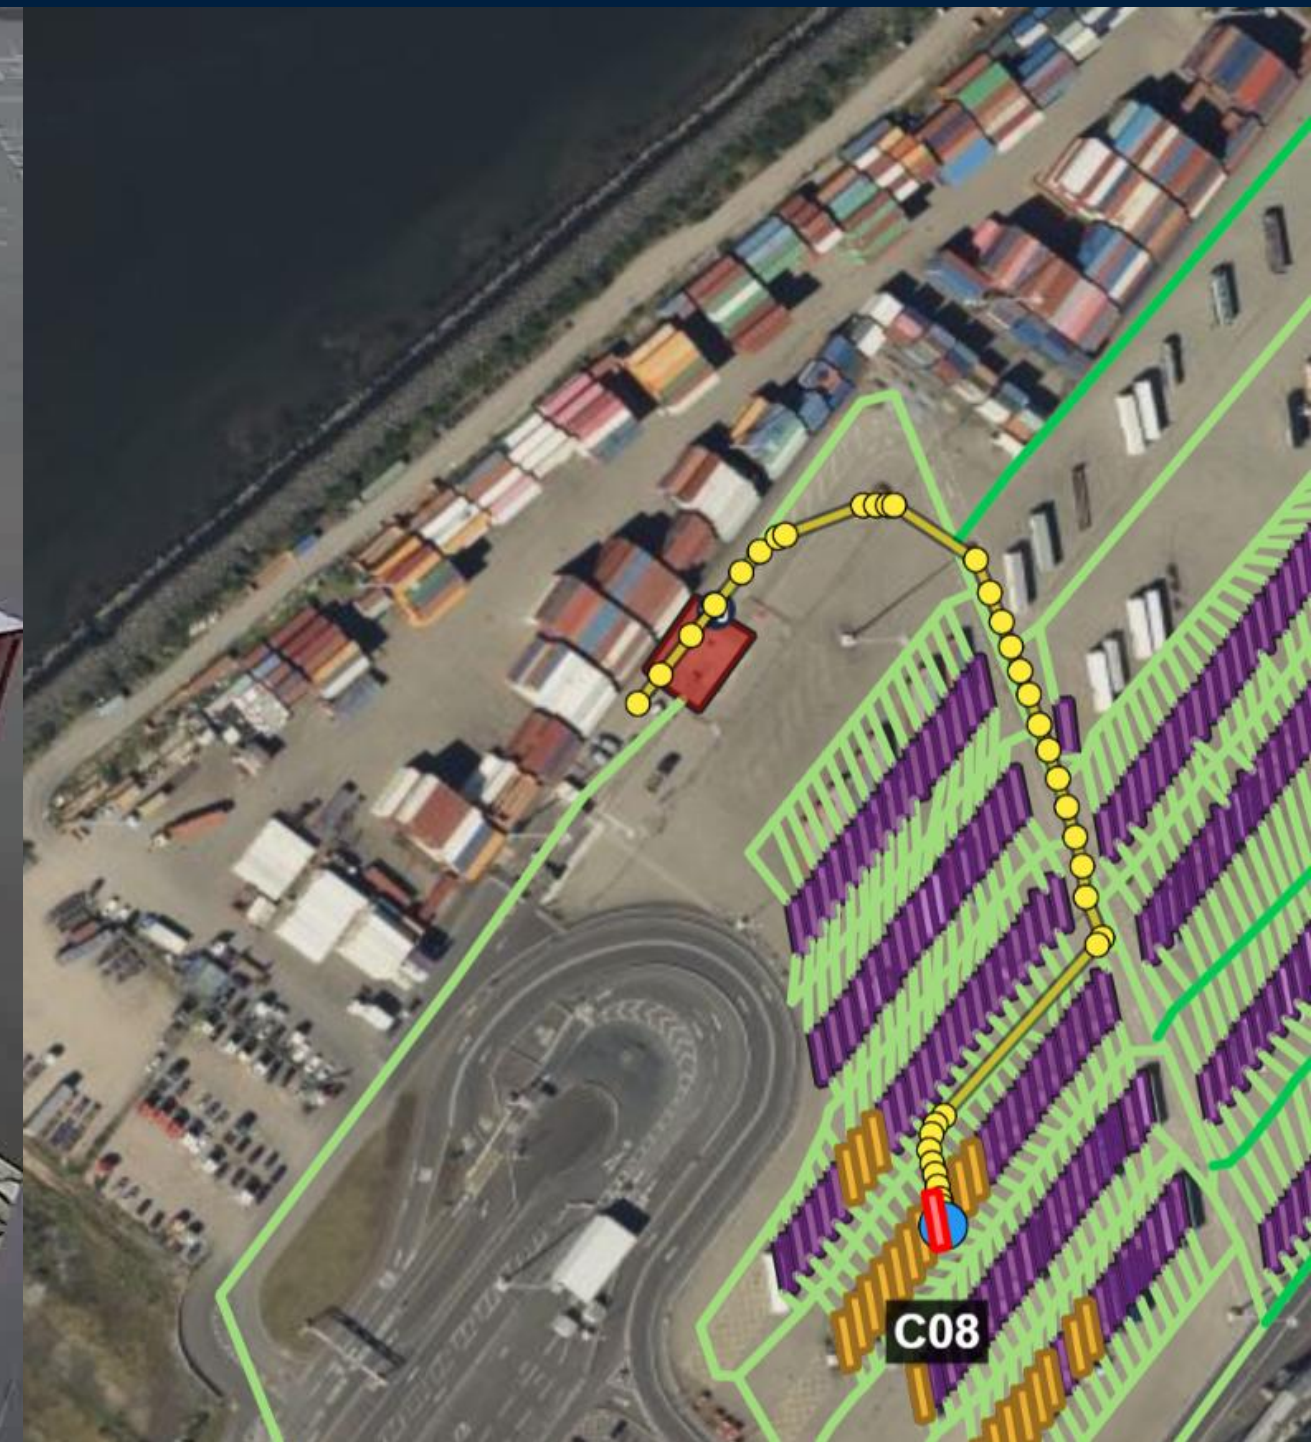

Lynx Smart Yard

>30%

of trailers were being
dropped in the incorrect bay

How Lynx Smart Yard works

Lynx Smart Yard Benefits seen during the PoC

Hauliers allocated optimum drop-off bay

- Reduces tug driving distance
- Reduces turnaround time for the vessel

Hauliers know where to pick up their units

- Improving Safety
- Reducing haulier time in the terminal
- Less risk for error

Accurate inventory

- Reducing snakewalks
- Real Time accurate data
